

## HARTWIG MEDICAL FOUNDATION - PUBLICATION POLICY

This publication policy was most recently updated as per 13 December 2022. Hartwig Medical Foundation may amend this publication policy at any time by publishing an amended version on its website.

---

### 1 General

- 1.1 This publication policy applies to any publication (“**Publication**”) that is based on, involves and/or mentions data (“**Data**”) obtained from the database of Stichting Hartwig Medical Foundation (“**Database**”) and/or statistical information (“**Statistical Information**”) based on Data in the Database.
- 1.2 Any person and/or entity (a “**Licensee**”) that is allowed access to any Data from the Database and/or has obtained Statistical Information, shall comply with this publication policy regarding any publication that is based on, involves and/or mentions Data or Statistical Information.

### 2 Acknowledgement

- 2.1 Licensee acknowledges that the Database and Data contain data obtained from third party medical institutions, medical centers and/or research or studies performed by third parties and agrees to properly acknowledge the contribution of these medical institutions/centers or other third parties.
- 2.2 In view hereof, Licensee shall ensure that Hartwig Medical Foundation is acknowledged in any Publication as the entity from which the Data and/or the Statistical Information has been obtained by using the following text:

*This publication and the underlying study have been made possible partly based on data that Hartwig Medical Foundation has made available to the study through the Hartwig Medical Database.*

- 2.3 Further, in case the Data have been generated using material/data collected in the context of one of the studies performed by the Center of Personalized Cancer Treatment (CPCT), which will be indicated to the Licensee by Hartwig Medical Foundation, the Licensee shall use the following text:

*This publication and the underlying study have been made possible partly based on data that Hartwig Medical Foundation and the Center of Personalised Cancer Treatment (CPCT) have made available to the study through the Hartwig Medical Database.*

- 2.4 In case the Data have been generated using material/data obtained from or collected in the context of research or studies performed by other third parties, which will be indicated to the

Licensee by Hartwig Medical Foundation, the Licensee agrees to acknowledge these third parties in a similar manner as provided for in Clause 2.3 of this publication policy.

- 2.5 Further, in case the Data have been generated using material/data collected in the context of patient care by the Netherlands Cancer Institute – Antoni van Leeuwenhoek hospital (NKI-AvL), which will be indicated to the Licensee by Hartwig Medical Foundation, the Licensee shall use the following text:

*The data for this study are provided (in part) by the Netherlands Cancer Institute (Antoni van Leeuwenhoek ziekenhuis). The authors want to thank all the involved patients, medical staff and research staff for making this possible.*

### **3 Presentation and Interpretation of the Data**

- 3.1 In case the Data have been generated using material/data collected in the context of one of the studies performed by the Center of Personalized Cancer Treatment (CPCT) or obtained from or collected in the context of research or studies performed by other third parties, the Licensee agrees to liaise with the relevant principle investigator of CPCT or such other third party (the “**Principle Investigator**”) in order to guarantee that the Data are properly represented and interpreted.
- 3.2 In view of the provision as set forth in Clause 3.1 of this publication policy, the Licensee shall contact the Principle Investigator in an early phase of the preparation of the Publication and the Licensee shall provide the Principle Investigator with a copy of the proposed Publication at least two (2) weeks prior to publication of the Publication (for example prior to submission to a peer-reviewed journal or online publication).
- 3.3 In case a Publication refers to specific ID’s in the Database, the Licensee and the Principle Investigator shall ensure that only HMF ID’s will be used for that purpose, using the following format: HMF000001A.
- 3.4 Any comments or questions of the Principle Investigator regarding the use of the Data shall be discussed among the Licensee and the Principle Investigator in good faith.

### **4 Ethical standards on publications and authorship**

- 4.1 Licensee shall comply with the recognized ethical standards concerning publications and authorship, including the Uniform Requirements for manuscripts submitted to Biomedical Journals, established by the International Committee of Medical Journal Editors<sup>1</sup>.
